

Target Customer Profile (ICP)

DEVELOPMENT TEST KNOWLEDGE - CueAI RAG fixtures. Not real customer or company documentation.

The target customer profile (ICP) for CueAI is mid-market and enterprise teams that run frequent client meetings, interviews, and sales calls. Primary buyers include RevOps leaders, Sales Enablement managers, and Engineering managers who need live AI assistance grounded in company knowledge.

Customer Acquisition Strategy

DEVELOPMENT TEST KNOWLEDGE - CueAI RAG fixtures. Not real customer or company documentation.

Customer acquisition strategy focuses on product-led trials, partner channel introductions, and targeted outbound to security-aware buyers. Launch strategy sequences: private beta with design partners, GTM enablement kits, then broader self-serve onboarding. Market segments include SaaS sales teams and professional services firms.
