

Product Positioning

DEVELOPMENT TEST KNOWLEDGE - CueAI RAG fixtures. Not real customer or company documentation.

Product positioning: CueAI is a live meeting intelligence companion that answers from your Knowledge Base first and falls back to general AI only when documents do not contain relevant information. Competitive positioning emphasizes citations, workspace isolation, and desktop companion overlays rather than generic chatbots.

Sales Channels

DEVELOPMENT TEST KNOWLEDGE - CueAI RAG fixtures. Not real customer or company documentation.

Sales channels include direct enterprise sales, self-serve web signup, and reseller partners. Messaging highlights document-first RAG answers with clear source citations for Security, GTM, Engineering, and Sales playbooks uploaded by Admins.
